OUTDOOR LEARNING - FARMSHAALA

Acad 25-26/Cir- 8/ 26th June, 2025

Dear JPS families,

1. "Outdoor learning experiences offer immense benefits, including fostering new ideas and inventions. By embracing learning both inside and outside the classroom, schools can teach children that learning occurs everywhere, at all times. Often, students associate learning with traditional classroom settings; outdoor learning helps broaden this perspective. Moreover, outdoor learning helps students develop resilience and essential life skills.
2. Farmshaala, nestled in Thiruttani on a 125-acre farm, offers diverse farming activities, Sustainable agricultural practices and excellent facilities amid serene natural surroundings. Experience the tranquillity of nature with refreshing nature walks. Additionally, an organic farm store conveniently located on the premises."
In line with this, an exciting outdoor learning program for our students.
